Space to Create!

Drawing Exchange

Space to Create! invites you to start a 'drawing conversation'.

inspired by artist Lindsay Seers and her Letter Paintings

Take some paper and make marks, shapes, patterns and doodles all over it.

We used ink and charcoal but you could use paint, chalks, pens or whatever you have.

We used sticks, sponges and feathers to draw with.

Find things around the house like bubble wrap, bottle lids and scrunched up newspaper and see what patterns they make when dipped in paint.

Start a drawing conversation with someone at home, a neighbour or a friend who would like some post.

They can return it to you or invite someone else to join the drawing conversation by passing it on.
