

Space to Create! Build your own mini gallery

Space to Create! Build your own mini gallery

We curated our gallery thinking about how our artworks looked together

We had fun finding all kinds of things around the house which transformed into artworks

Maybe your gallery will have visitors

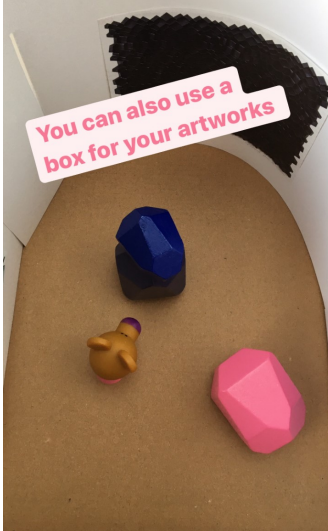

We had fun making wall texts

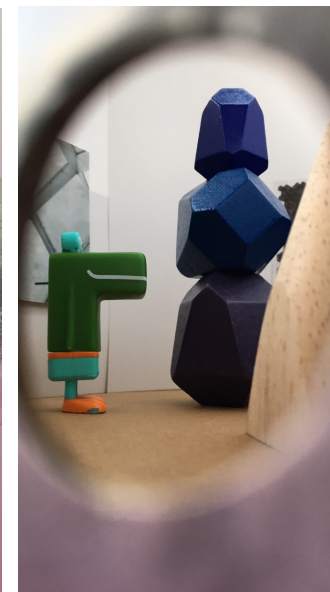

We took photos to document our mini gallery.

You can also use a box for your artworks

This box had a hole which was like a window to take photos through

We hope you are inspired to curate your own mini gallery
